Information note 25/4 of the Commissariat aux Assurances on the FATF Public Consultation on Complex Proliferation Financing and Sanctions Evasion Schemes project

The FATF is undertaking a study aimed at improving country and private sector understanding of current Proliferation Financing risks.

In this context, the FATF is seeking input from the private sector and civil society on best practices and challenges on identifying, understanding and mitigating Proliferation Financing risk. The public consultation will also seek views on how the FATF can support the private sector to meet their counter proliferation financing obligations.

Further information and the online survey are available on the [FATF website](#). The public consultation period runs until 21st March 2025.
